# the brief

time to get creative

**Find something you enjoy doing, this could be trips to the beach or even watching a sport. We want you to create a piece of work that represents your passion for this.**

- Start off by brainstorming, using the **Crazy 8's technique**, how do you want to portray this passion through the work you create?  
(This could be an obvious approach or something that only you would associate with that passion)
- Look through the **list of resources** we have provided you with in the Make Pack to gain some inspiration.
- Using the **moodboard template** bring your ideas all into one piece of paper.
- Now it's time to get creating, use the **#McrOpen2022** to share your creations!

## Idea Generation

# Crazy 8's

**TOP TIP**  
Don't create detailed drawings, this is only the initial stage, get every idea out on paper!

### STEP ONE

Grab a piece of A4/A5 paper, a pen and a timer.

### STEP TWO

Fold paper into 8 pieces (fold it in half, repeat that twice more and open it up)

### STEP THREE

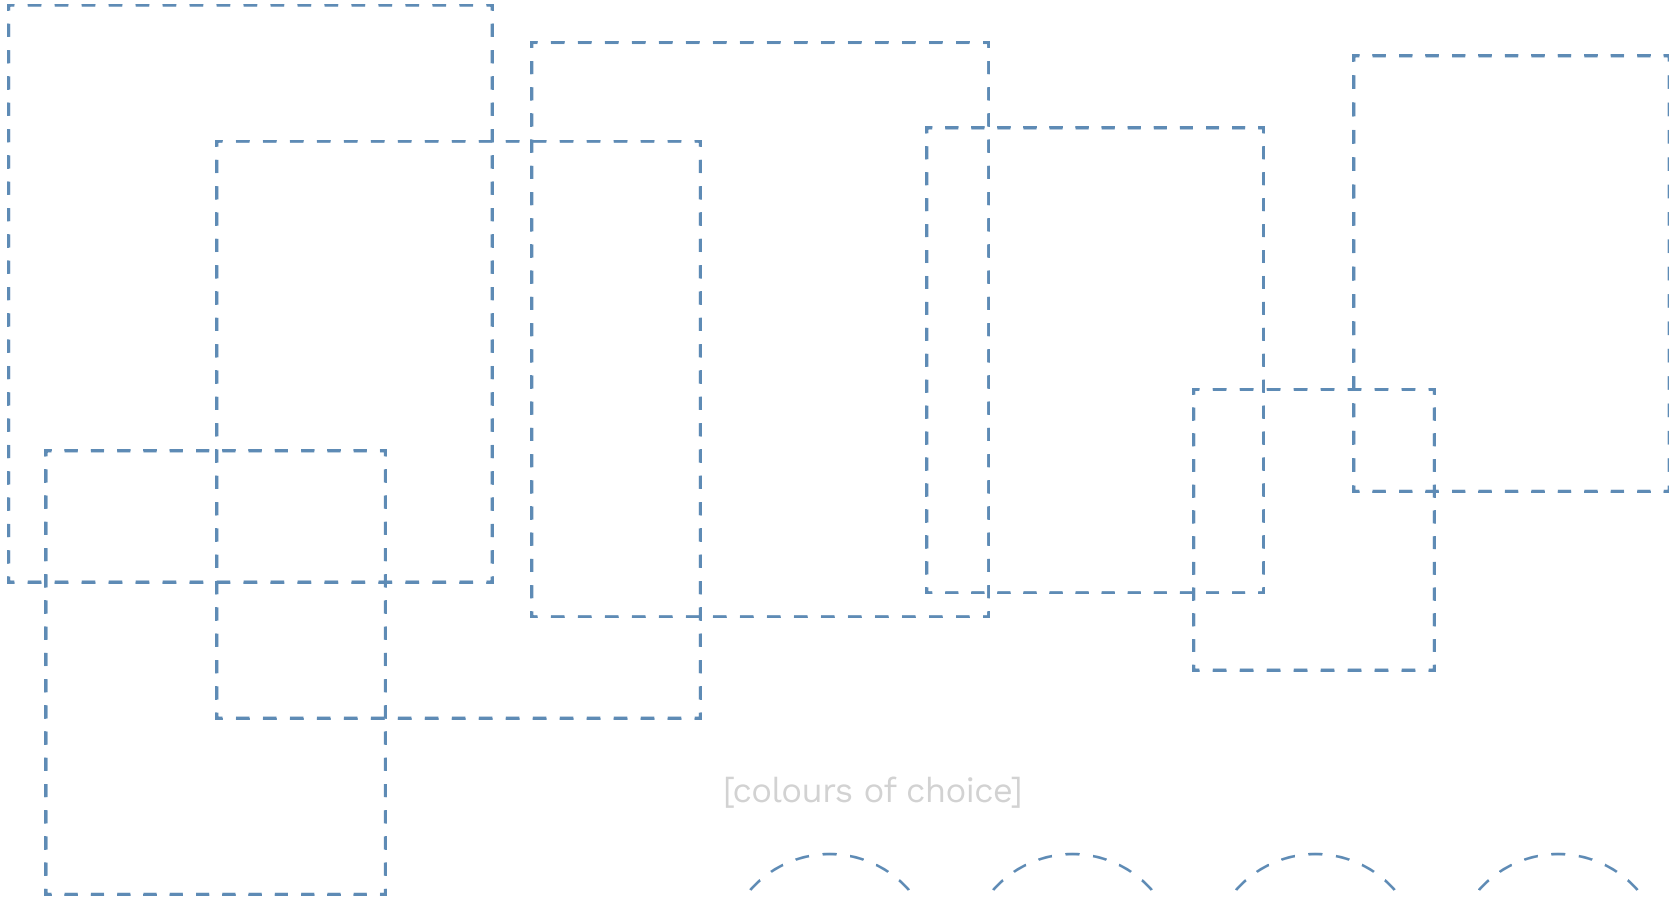

Set the timer to 8 minutes and get drawing!

### STEP FOUR

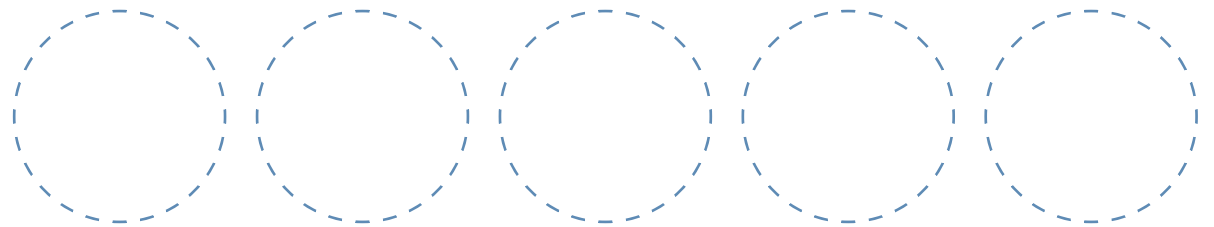

Ideally you want to have a drawing a minute but don't let that restrict you, try not to keep your eyes on the timer.
